

FISCAL NOTE

SB 2139 - HB 2218

January 21, 2004

SUMMARY OF BILL: Provides that a restricted driver license can be issued to a person whose license has been suspended for a violation of implied consent provisions in order for such person to go to and from a court-ordered alcohol safety program, to and from a college or university in the case of a student enrolled full time, and to and from a scheduled interlock monitoring appointment in addition to going to and from and working at a person's regular place of employment as provided in current law. Specifies that a person must apply for such restricted license from the court suspending the person's driver license. Under current law the person applies to certain courts having jurisdiction in the county of the person's residence.

ESTIMATED FISCAL IMPACT:

Increase State Revenues - Not Significant

Estimate assumes the state will experience an increase in revenues from restricted license fees as a result of more individuals being eligible to receive a restricted license. Such increase is estimated to be not significant.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
